

Cross-Scheduling Showings Using ShowingTime

Agents seeking to show properties listed with another MLS may be able to utilize ShowingTime for scheduling rather than having to contact the listing agent or listing brokerage directly.

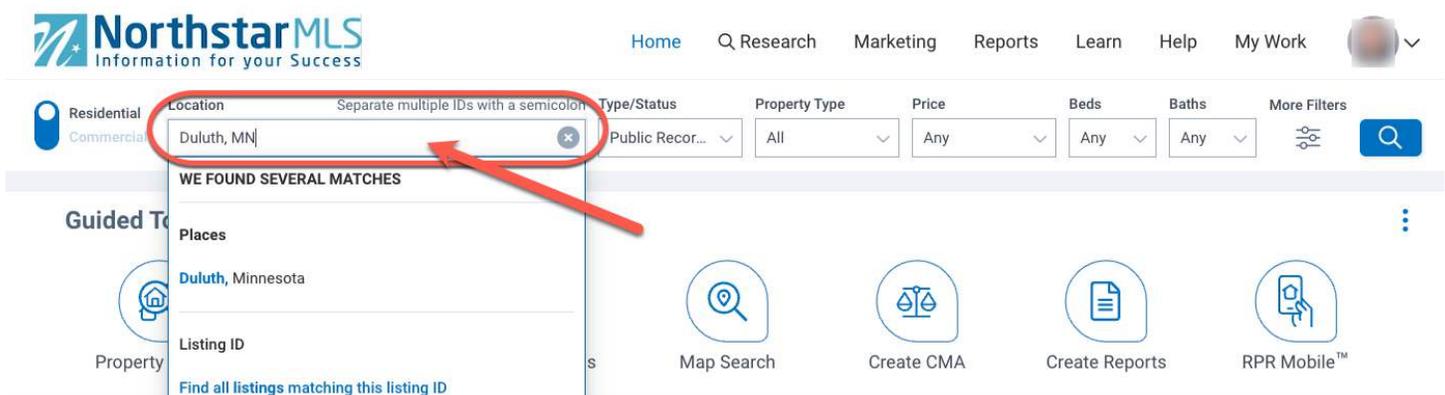

There are two ways an agent can do this.

1. Search for the listing using [Realtors Property Resource® \(RPR\)](#) and locate the ShowingTime link within the listing, if enabled.
 - Keep in mind that not all MLSs participate in data sharing with RPR and the listing may not be available in that platform. Some MLSs may share data with RPR, but do not use ShowingTime or have the ShowingTime feature enabled.
2. Search for the listing in your ShowingTime account using the street number/name, Listing ID, city or unit #.

If you are unable to locate the listing using either of these two methods, the listing is probably not available in ShowingTime and you will have to contact the listing agent or listing brokerage directly to schedule a showing.

Cross-Scheduling Showings in ShowingTime Using RPR

1. Log into RPR (<https://www.narrpr.com/home>) and search for the listing.

- Once the desired property is located in RPR via address or map search, open the listing to view full details.

The screenshot displays the NorthstarMLS interface. At the top, the logo reads "NorthstarMLS Information for your Success". Navigation links include Home, Research, Marketing, Reports, Learn, Help, and My Work. Below the navigation is a search bar with filters for Residential/Commercial, Location (Duluth, Minnesota), Type/Status (Sales), Property Type (All), Price (Any), Beds (Any), and Baths (Any). The main content area shows "170 Properties" on a map. A details panel is open for a property, featuring a photo of a house, a heart icon, and the text "Active / SFR". Below the photo are icons for 4 bedrooms, 3 bathrooms, 2,720 square feet, and 0.65 acres. The address "Duluth, MN 55811" is visible. A red arrow points to an orange "View Full Details" button at the bottom of the panel. The map shows various neighborhoods like Hermantown, Proctor, and Superior, with property markers labeled "New" or "Open".

3. Scroll down to the section within the listing labeled “Additional Resources” on the right margin. If ShowingTime is displayed, you can click on that option and schedule a showing.

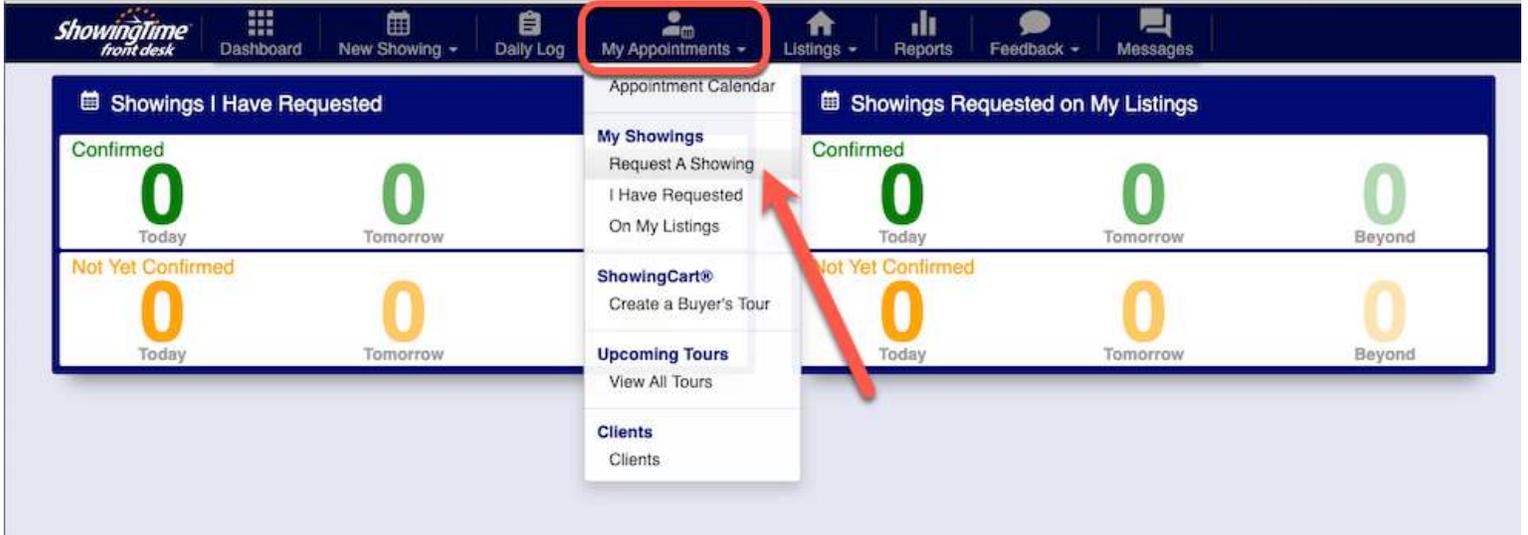

The screenshot displays a real estate dashboard with a blue header containing navigation tabs: Property Information, Map/Location, Market Trends, Refined Value, CMA, Neighborhood, and My Updates. A 'Create Report' button is in the top right. The main content is divided into two columns. The left column, titled 'Property Facts', contains a table with four columns: Name, Public Facts, Listing Facts, and Your Changes. The right column, titled 'Additional Information', contains a section for 'Additional Resources' with four options: Valuate, ShowingTime, ClimateCheck, and Risk Factor. The ShowingTime option is highlighted with a red circle and a red arrow pointing to it from the left. Below the resources is a 'Listing Agent' section with fields for Agent, Lic. #, Office, Mobile, Phone, and E-Mail.

Name	Public Facts	Listing Facts	Your Changes
Property Type*	Single Family	Single Family	<input type="text"/>
Property Subtype	Single Family Residential	Y6P	<input type="text"/>
Bedrooms*	4	4	<input type="text"/>
Total Baths	4	6	<input type="text"/>
Full Baths*	3	2	<input type="text"/>
Partial Baths*	1	4	<input type="text"/>
Living Area (sq ft)*			<input type="text"/>
Building Area (sq ft)			<input type="text"/>

Cross-Scheduling Showings in ShowingTime (current system)

1. Log into your MLS system of choice ([Matrix](#), [Paragon](#), or [Flexmls](#)) and launch the ShowingTime application from the tools/resources/products menu or access ShowingTime right from the [NorthstarMLS Dashboard](#).

- In ShowingTime, hover over “My Appointments” and select “Request A Showing” from the dropdown menu.

- Use the search bar or the advanced search in the left margin to locate the desired listing.

- Click on the desired listing from the results list and schedule a showing.

New Activity Request - Mankato, MN 56001

Cross-Scheduling Showings in ShowingTime (Next Generation)

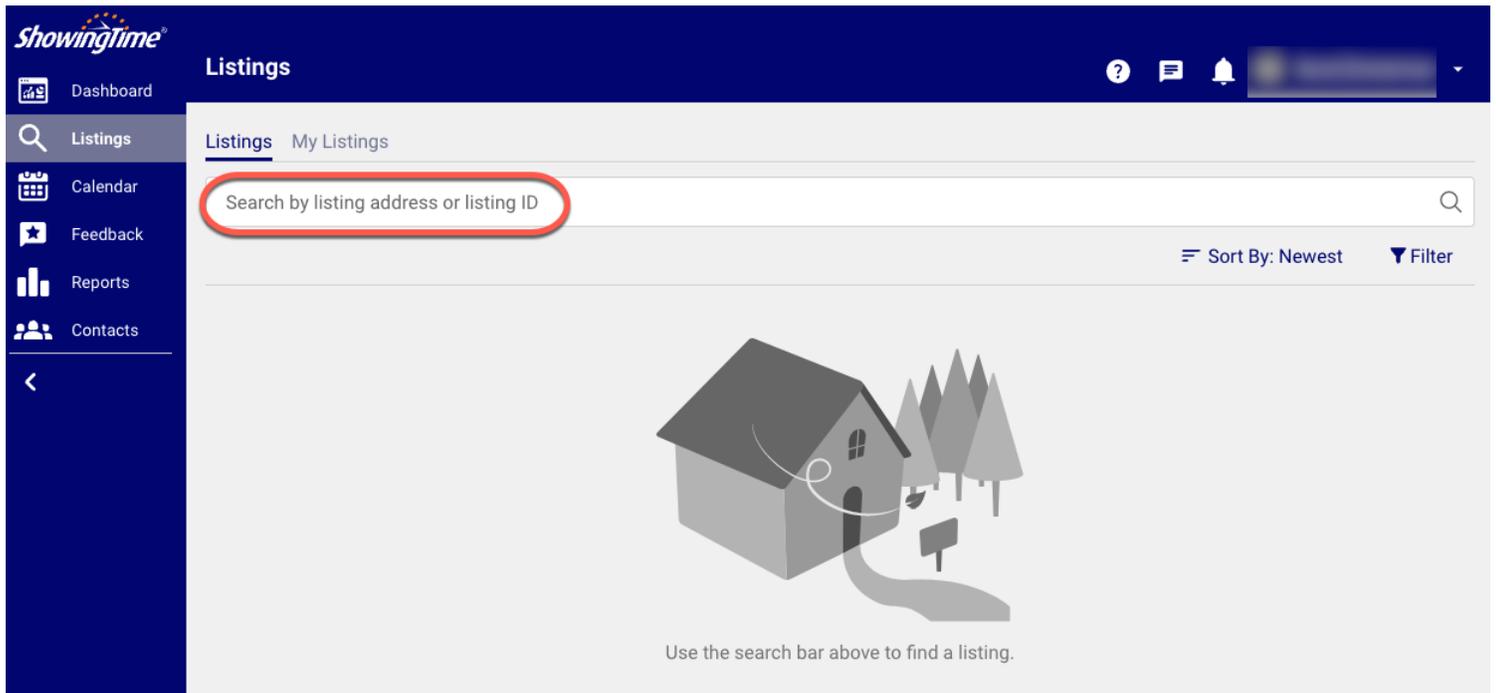

Steps for cross-scheduling showings for users of [ShowingTime Next Generation](#) include:

1. Log into your MLS system of choice (Matrix, Paragon, or Flexmls) and launch the ShowingTime application from the tools/resources/products menu.

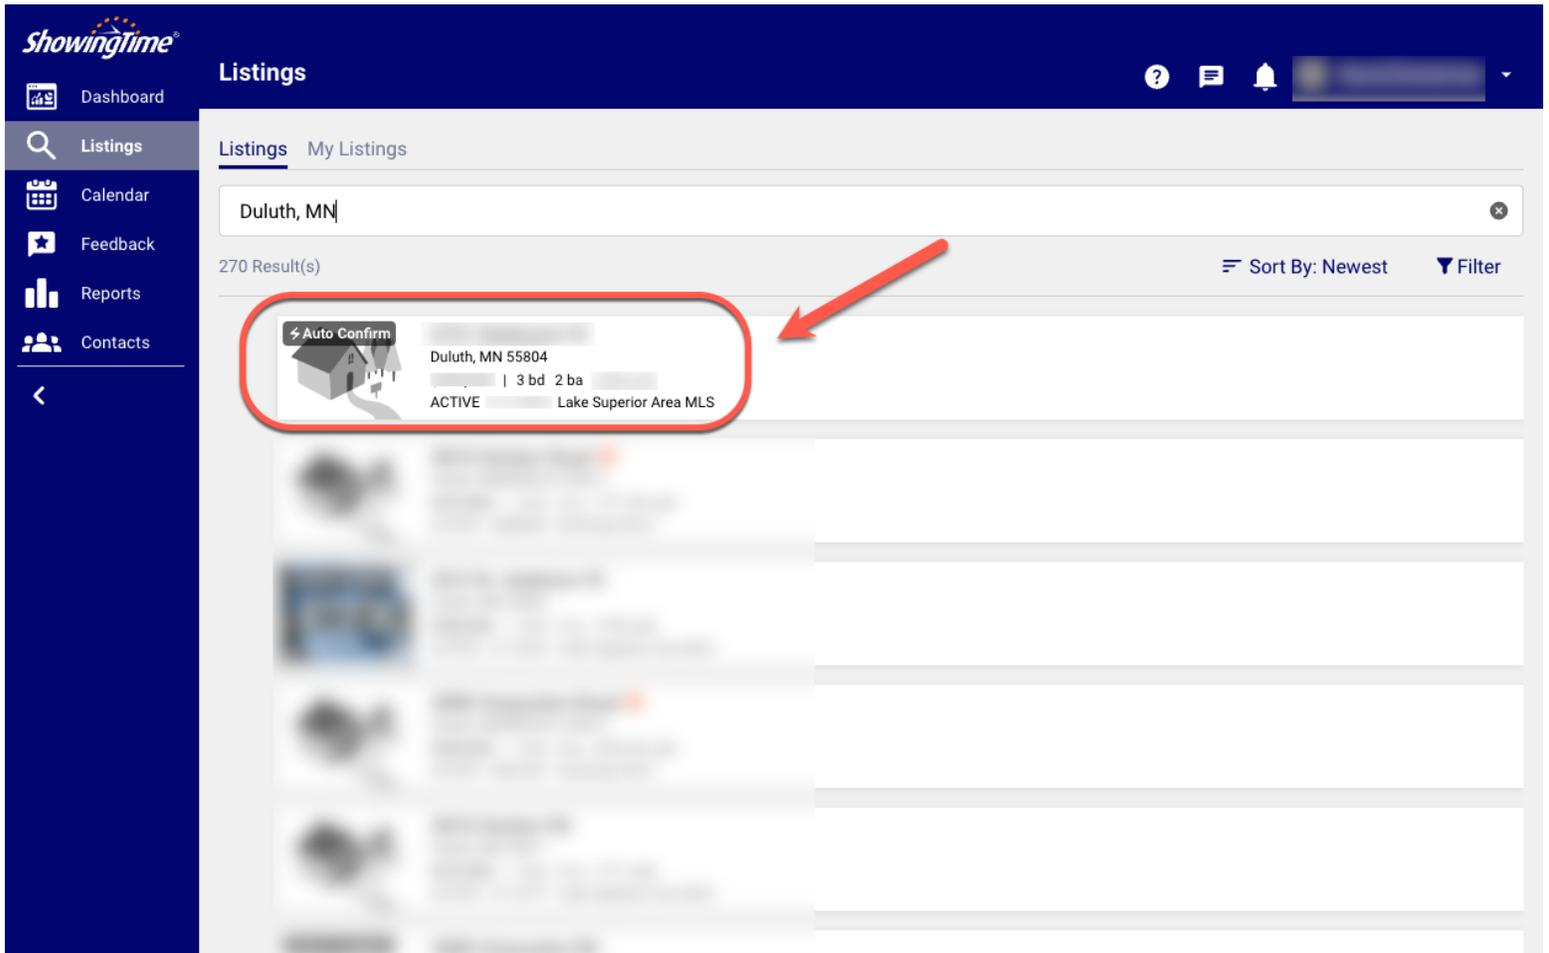

2. In ShowingTime Next Generation, click on listings in the left margin.

3. Use the search bar at the center to search for the desired listing.

4. Click on the desired listing from the results list and schedule a showing.

5. Click on "Schedule Showing".

The screenshot shows a real estate listing interface. At the top left, there is a dark blue header with the word "Listings" and a help icon. Below the header, on the left, is a 3D illustration of a house with a dark roof and a chimney, with a "Auto Confirm" button above it. To the right of the house is a map showing a street grid and a red line indicating a route. Below the house illustration, the address "Duluth, MN 55804" is displayed. A red circle and arrow highlight the "Schedule Showing" button, which is located below the address. To the right of the address, the text "3 bd 2 ba" and "ACTIVE" are visible. Below the "Schedule Showing" button, there is a "Details" link and a "Download PDF" button.
