## STEP 2

Choose what type of list you want to purchase ( this is who you want to target). Do this by selecting Consumer, New Homeowners, New Movers, Resident / Occupant, Individuals or Business.

## STEP 3

Then select geography. Use the below options to decide the geography you'll be marketing to with your list.

#### STEP 4

Select demography to narrow your list even further by choosing selects that refer to the people or businesses you are trying to target. Common examples include household income or number of employees for businesses.
