

Flexmls Pro: Mobile App for Agents

The Agent's MLS On-The-Go

Real Estate moves quickly. Never miss a beat with Flexmls Pro: the fast, powerful, and convenient native agent app. What professionals need, precisely when they need it.

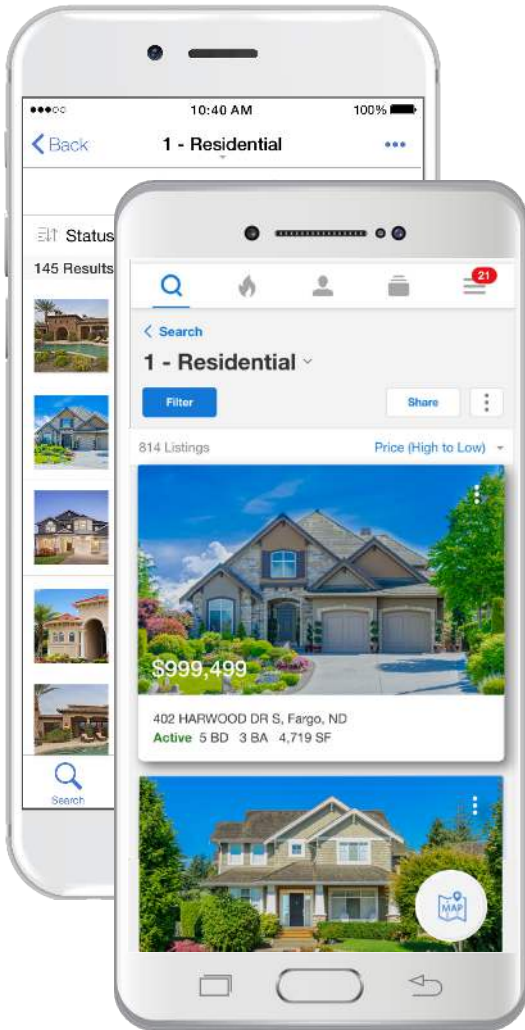

Flexmls Pro: Mobile App for Agents

The Agent's MLS On-The-Go

Designed to mirror the Flexmls desktop experience, the Flexmls Pro App puts the power and reliability of the MLS at the agent's fingertips, giving them what they need precisely when they need it without the hassle of learning multiple systems. 100% continuity with Flexmls Web includes real-time listing data maintenance (private and showing info), saved searches, contacts and subscriptions, portals, search templates, messaging and Quick Launch.

With the Flexmls Pro App, Agents can:

- View listings in list, map, or listing detail view
- Maintain listings: change status, edit price, add/change photos
- Search nearby to your current location, MLS #, address, or draw on the map
- Search all fields in any property type or multiple property types
- Add new contacts, create saved searches, and set up client subscriptions
- Instantly query: start typing an address, MLS#, search criteria, search for agents/clients, saved searches, and more in Quick Launch
- Use fuzzy-logic searching when typing or speaking agent names, listing information, and contacts
- Contact Activity Tracking: identify the most active contacts at a glance and drill down to view email open rates and clicks for viewed listings
- Direct message with clients in App by text, email, and more
- Invite new contacts to the portal with one touch
- Keep clients up-to-date with saved searches and subscriptions

“The Flexmls Pro app makes it so easy to connect with clients directly. I love how convenient it is to check the hot sheet right from my phone.”

- Noemi Aylesworth, First Realty Bemidji
