Transform listings into must-see properties with Roomvo's proprietary AI-designer

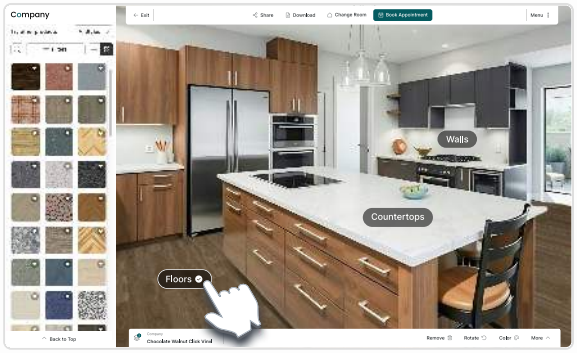

Step 1 The “Redesign” button will be easily findable on your property listings pages.

Step 2 By simply clicking the “Redesign” button, any room can be instantly redesigned.

Step 3 Before and after visuals are easily compared with a simple drag of the slider.

Step 4 Different styles and customization options can be explored at a click.

Step 5

Buyers can easily share their redesigned room visuals with you — and their friends and family — sparking further interest and discussion.

PRO TIP Kitchens, bathrooms, and living areas with dated features have the biggest impact on buyer interest.
